

PRESS RELEASE**CEATEC, Makuhari Messe, JAPAN, October 16-19, 2018, Booth#H041****EVERLIGHT Demonstrating Full Product Series at CEATEC, Japan**

Shulin, New Taipei City – Oct. 15, 2018 – EVERLIGHT ELECTRONICS CO., LTD. 【TSE:2393】 , a leading player in the global LED and optoelectronics industry, will attend CEATEC (date: 10/16-10/19) in Japan to demonstrate full product series, extending to automotive interior/exterior, portable electronic device, household appliances, industry, lighting, gaming and signage. You are welcomed to visit our booth (Booth No.: H041).

EVERLIGHT promoted 3D tail lamp with the special design of optical structure plus a distribution of geometric position by EL Top View Lens (3.5x2.8x3.35mm) to change the emitting angle from LED, achieving 3D lines and graphic display. Not only presented the style beauty but also met ECE R6, R7, much more environment durability and cost advantage than OLED 3D tail lamp. In the meantime, this 3D technology can be used to design back drive, brake and turn light. New tail lamp in Smart Multi Array used Smart Multi series (3.5x3.5x0.8mm) to provide the information transmission and multiple graphic display. Such tail lamp combined the visual effect and performance to be the best choice for tail lamp.

Owing to the requirements of life quality for modern people, home light with IR will be demonstrated on the booth with touch sensing for ITR and ambient sensing for ALS plus XI3030. A user can adjust the color and brightness by favor. Many series in different efficiencies, dimensions, performance price ratios and emitting angles will be demonstrated on CEATEC. In addition, the fine craft and effect on 1010 series will be demonstrated on the large signageboard.

We combined the R&D, business and market teams, plus the professional ability to develop over 35 years, as well as continuously pursued the innovation and breakthrough on the package technology plus strict production and quality control to provide perfect solutions for customers.

Exhibition: CEATEC 2018

Date: 2018/10/16-10/19

Time: 10AM-5PM

Venue: Makuhari Messe, Chiba, Japan

Booth Number: H041

About EVERLIGHT Electronics Co. Ltd.

EVERLIGHT Electronics Co., Ltd. was founded in 1983 in Taipei, Taiwan. Led by Chairman Robert Yeh. EVERLIGHT has over 35 years of R&D experience for reliable capability. With global operations for customer service and an excellent brand reputation, EVERLIGHT has been ranked in the top four LED manufacturers in this competitive LED market. Our products are manufactured in-house to guarantee maximum quality and service. EVERLIGHT provides the most diversified product portfolio consisting of Low Power LEDs to Ultra High Power LEDs, Through-hole LEDs to SMD LEDs, LED Lighting Modules, Digital Displays, Optocouplers and Infrared Emitters and Sensors, and many other LEDs for the Lighting, TFT, Automotive, Signage, and Consumer markets. Today, EVERLIGHT is a global company with over 6,400 employees based throughout China, Hong Kong, Japan, Korea, Singapore, Malaysia, India, Germany and U.S.A.
