EVERLIGHT introduces New Lighting and Signage LEDs at LED EXPO Thailand

Shulin, New Taipei City 【2016.04.19】 – EVERLIGHT ELECTRONICS CO., LTD. 【TSE:2393】 , a leading player in the global LED and optoelectronics industry, exhibits complete LED component portfolio at Thailand LED Expo booth (4/19-4/22, Booth Number: S12) wherein exhibited components are inclusive of lighting, signage, infrared and automotive components. Its popular 2835 series, new products like DOB and ShwoF, together with signage LEDs will be demonstrated at this exhibition.

All along, EVERLIGHT 2835 product series (2.8x3.5x0.7mm) have been widely inquired and applied due to high price-performance ratios. These products always draw very frequent inquiries on markets. By taking the aforesaid advantage, EVERLIGHT adds many more products with different voltages and watts in Q1. For the product series with 0.5 watt, the available voltages are separately 3V, 6V, 9V and 18V. For the product series with 1 watt, the available voltages are 6V, 9V and 18V. These new products make more complete series of products applicable for bulbs, downlights and high efficiency tubes. The DOB new product series are installed by using the 2835 product series including various sizes and watts. DOB products are both advantaged with easy installation and cost saving of drivers, quite suitable for the applications of downlights, ceiling lights and bulbs. The hi-efficiency Shwo F series are also the new items proposed in this year and they are manufactured by means of flip chip technology with excellent performance in heat management and overdrive conditions highly suitable for streetlights and various industrial lightings.

EVERLIGHT also incessantly advances in the technology of signage, providing complete indoor and outdoor LED product solutions. No matter in PCB, PLCC, lamp categories, single/triple chip package, single color, single-color full-color and all kinds of light angles, EVERLIGHT can always satisfy your demands to signage. Among them, the indoor products of both 18-038BT (1.0x1.0mm) and 18-035 (0.55x0.55mm) product series are the most predominant items especially suitable for the applications of indoor pitches at P1.6-P2.5 and P1 below. Both these two product series are fine pitch LEDs available for almost seamless joints characterized by naturally true colors and perfect effect of high contrast. The 3474BH product series (3.2 x 4.1 x 6.3mm) for outdoor applications are functioned with lamp installation and they are waterproof and anti-UV ensuring the quality of high reliability especially dedicated to the applications outdoor full-color big-size signage applications.

Meanwhile, EVERLIGHT also exhibits its key automotive and infrared products. We sincerely welcome your visit. The professional R&D, sales and marketing teams of the EVERLIGHT spend customer-oriented effort meeting their demands. It is expected our one-stop all round solutions can provide customers with high quality service beyond their anticipation.

EVERLIGHT Electronics sincerely invites you to visit our booth during Thailand LED Expo

Booth: Hall 6, S12

Dates: April 19th – 22nd, 2016

About EVERLIGHT Electronics Co. Ltd.

EVERLIGHT Electronics Co., Ltd. was founded in 1983 in Taipei, Taiwan led by Chairman Robert Yeh. EVERLIGHT has over 33 years of R&D experience for reliable capability. With immediate service and an excellent brand reputation, EVERLIGHT has taken top five in the competitive LED market. Our products are manufactured and packed in-house to guarantee maximum quality and service. EVERLIGHT provides a diverse product portfolio consisting of High Power LEDs, SMD LEDs, Lamps, Lighting Components, LED Lighting Modules, Digital Displays, Opto-couplers and Infrared Components for various applications. Today, EVERLIGHT is a global company with over 6,400 employees based in China, Hong Kong, Japan, Korea, Singapore, Malaysia, India, Germany and U.S.A.
